

PRODUCT FEATURES

STARLUX is a continuous skylight. With regard to design, it can be an arched version as well as the traditional saddle, monopitch and shed continuous rooflights. All variants are suitable for building into in flat roofs in industrial and administrative and are also ideal for energy-efficient building refurbishment.

It fulfils the highest requirements with regard to sun, heat, sound and fire protection. Several types of vents, such us, DELTA, MONODELTA, MEGADELTA and VENTRA, can be integrated on the skylight.
